

Alan Giana

Born and raised in Connecticut, Alan Giana always wanted to be an artist, having watched his father, an accomplished ceramic artist, apply glazes and different painting techniques. In fact, one of Alan's first works of art was at the age of four when he grabbed a magic marker and proceeded to scribble on the wall with it. Needless to say, his parents were not too happy, but a career was certainly set in motion. Throughout his school years Alan always loved drawing and painting and went on to college to earn a degree in graphic design management.
